Not surprisingly PayPal are keen for you to create an account at the same time as you pay by CC, If you do not want to do this make sure you **uncheck the box** towards the bottom of the screen.

If you have a PayPal Account but don't want to use it for this transaction you may see partial population of this form see above entry in Password box. This clears on unchecking the box.

When you have completed the transaction you will get an email confirmation.
